

Overview:
Start Quick and Ramp It Up! 5th Grade Thinking Through the Operations

Activity	Content	Focus
5.O.1 Quick Start	One-step word problems with all operations and whole numbers	Choose operation and solve a word problem.
5.O.2 Ramp Up	One-step word problems with all operations and whole numbers	Choose operation and solve a word problem.
5.O.3 Ramp Up	One-, two-, and multi-step problems and whole numbers	Write questions that could be asked about a problem situation. Answer multiple questions about a problem situation.
5.O.4 Ramp Up	One-, two-, and multi-step problems and whole numbers	Find and correct problems that are worked incorrectly.
5.O.5 Ramp Up	One-, two-, and multi-step problems and decimals	Choose the operation(s) and solve word problems.
5.O.6 Ramp Up	One-, two-, and multi-step problems and decimals	Write questions about a problem situation. Answer multiple questions about a problem situation.
5.O.7 Ramp Up	Dot plots, stem-and-leaf plots, and decimals	Choose the quantities needed from a table of data.
5.O.8 Ramp Up	One-, two-, and multi-step problems and decimals	Correct problems that are worked incorrectly.
5.O.9 Ramp Up	One-step problems with fractions	Choose the operation needed and write an equation to solve a word problem.
5.O.10 Ramp Up	One- and two-step problems with fractions	Correct problems that are worked incorrectly.
5.O.11 Ramp Up	Dot plots, stem-and-leaf plots, and fractions	Choose the quantities needed from a table of data.
5.O.12 Ramp Up	One- and two-step problems with fractions	Choose the operation(s) and solve word problems.
5.O.13 Ramp Up	Whole number, fraction, and decimal operations	Solve problems to advance a story.
